

Dear Alan

Thank you for this comprehensive document – it is very interesting and thought provoking. I am sorry for not replying sooner, however my main focus this month, as you may have gathered, has been aimed at the school bus situation – which to a large extent has now been resolved.

The suggestions contained within your document involve Kent County Council, Sevenoaks District Council, possibly the town council and also bus operators (primarily for Sevenoaks Go Coach). I will approach each in turn for comment and to see what could possibly be done. KCC are still awaiting final details of the BSIP money they are due to receive in October and clearly I will be pushing for my constituency to receive its fair share of funding, and for that money to be spent in the best way possible. Your vision involves all of the various partners working together and that clearly is the best way forward.

Once again, thank you for taking the time to contact me and setting out your discussion document so clearly and in such detail.

With best wishes,

Laura
